Gamber-Johnson CF-33 Toughbook Tablet Docking Station

For your Toughbook 33 when used without a keyboard

Secure your Panasonic® Toughbook 33
If your Toughbook 33 does not have a keyboard, this is the docking station you need. The docking station comes with all the ports your drivers will need including serial 9 pin, LAN, power input, and plenty of USBs. The design accommodates either a hand strap or tablets with the optional long life battery.

Certificates & testing
The docking station is designed and tested to rugged environmental standards. It’s Toughbook Certified, and has passed MIL-STD-810G shock/vibration, RoHS, FCC, and CE testing.

Features
- Compatible with Toughbook 33 (when not attached to any keyboard).
- Internal/protected circuit board protects against dirt and dust.
- Floating docking connector for reliable docking connection.
- Lock (keyed alike) for theft deterrence.
- Compatible with all tablet configurations and accessories except for tablets when configured with optional long life batteries and the Panasonic rotating hand strap CF-VST332U.
- Rounded edges to enhance personal safety.
- Rugged construction for long-term durability.
- Can be used with Lind 120W automobile power supply CF-LNDDC120 (sold separately).
- 3-year limited warranty.

Port replication
- Serial 9 pin
