

## WX-SA250 Wireless Antenna

The WX-SA250 wireless antenna is an integral part of Panasonic's SR200 1.9 GHz Digital Wireless Microphone system, providing line of sight communication with Panasonic's ST200 wireless microphones and routes the signal flawlessly back to the WX-SR202 digital wireless receiver via CAT5 / 6 connection. Multiple antennas can be placed in a room to accommodate for room size or multiple 2-channel microphone systems. Each antenna has a maximum range of 131 feet (40-meters) and is easily adjustable to 3 lower steps so you can easily accommodate room size and minimize interference with other Panasonic wireless microphone systems installed in adjacent rooms. The WX-SA250 can easily be mounted on a wall, ceiling, or even on a microphone stand for mobile installations using the bracket included.

### **Key Features:**

- Provides in-room line of sight connection with Panasonic's WX-ST wireless microphones, enabling the Panasonic WX-SR202 digital wireless receiver to be hidden in a cabinet or closet.
- Easy to install and configure.
- Connects via a CAT5 / 6 cable to the WX-SR202 digital wireless receiver (up to 8 can be connected to one receiver).
- Selectable range to accommodate room size and minimize interference with multiple systems installed in adjacent rooms.
- Multiple antennas can be installed in one zone for maximum coverage.
- Flexible mounting options (on wall, on ceiling, or on a microphone stand).
- Mounting plate included.

## WX-SA250 Specifications

<b>Antenna Field Selection:</b>	Three-step switching (set at WX-SR202 receiver) using Panasonic's Operation Support Software
<b>Wireless Frequency:</b>	1920 MHz to 1930 MHz
<b>Operating Ambient Temp.:</b>	14° F to +122° F (-10° C to +50°C)
<b>LED Indicators:</b>	Power
<b>Power Source:</b>	RJ45 from WX-SR202 Receiver Compatible cables: CAT5 / CAT5e / CAT6 straight cable
<b>Water Resistance:</b>	IPX4 equivalent
<b>Warranty (Parts &amp; Labor):</b>	3 years
<b>Finish:</b>	Sail White (color approximate to Munsell N9.3)
<b>Accessories Included:</b>	Mounting Plate
<b>Dimensions (W x H x D):</b>	7-9/32 in W x 6-19/64 in H x 1-17/64 in D (185mm W x 160mm H x 32mm D)
<b>Weight:</b>	0.88 lbs. (400 g)

Leveraging Panasonic's 20-year experience in DECT wireless audio communications, the WX-SR200P 1.9 GHz digital wireless microphone system is the best-in-class solution for classroom or corporate presentations providing low latency for hybrid in-room/virtual applications. Panasonic's digital wireless microphone system is easy to set up, easy to integrate with third-party control systems (such as Crestron and Extron) and easy to use. Setup is a breeze - the WX-ST400 pairs wirelessly with Panasonic's WX-SR202 receiver and assigns channels automatically, eliminating the need for manual channel assignment. The system can be expandable to suit a variety of spaces, from small classrooms, medium sized classrooms / conference rooms, to large auditoriums. Up to 8 separate antennas (per receiver) can be mounted to the wall or the ceiling in the room and connected via CAT5 back to the receiver locked away in a cabinet or closet and multiple 2-channel receivers can be installed to add wireless microphone channels to the room.
