PTZ Camera Control

NEW UPDATES! WINDOWS SOFTWARE

PTZ Control Center
Use the free PTZ Control Center software to set-up and control your camera on a Windows laptop or desktop PC. With this software, you can utilize your mouse, your touch-screen, or your choice of compatible joysticks or game controllers for camera control.

- Software application that allows for remote operation of Panasonic Professional PTZ cameras via your PC, allowing for control via a standard keyboard/mouse, touchscreen, or a compatible USB joystick / game controller
- Allows for centralized management of multiple PTZ cameras
- Provides simultaneous control of multiple cameras, allowing adjustment of Focus, Iris, Gain, White Balance, Shutter & ND Filters
- Add up to 9 camera presets with thumbnails

Full-Size Controller
AW-RP150
Control up to 200 PRO PTZ cameras with this full-size camera controller. Quickly setup and access camera presets and complex image controls and easily control your cameras with a top-of-the-line joystick, ensuring smooth camera movements.

- Large 7” LCD Touchscreen w/Touch Focus Functionality
- Camera Monitoring via HD-SDI
- Industry Approved Ergonomic Design
- 3D Joystick for Single-Handed Operation
- Simplified PTZ Camera Presets & Tracking Memory
- Streamlined Multicamera Deployment
- Power via PoE+ or XLR

Compact Controller
AW-RP60
Control up to 200 PRO PTZ cameras, with this full-featured controller. A 3.5” LCD screen displays menus & key camera information such as iris, zoom and focus. Easily manage 100 PTZ presets.

Auto Tracking Software / Server
AW-SF100 / AW-SF200
State-of-the-art auto tracking software options for Panasonic PTZ remote cameras. Dramatically simplifies your remote camera for easier single-person operation. Using a combination of tracking methods, including template matching, facial detection and deep learning, compatible Panasonic PTZ cameras can be automated to keep track of speakers or lecturers without the need for a dedicated camera operator.

- AW-SF100 (stand-alone software) / AW-SF200 (server)

Visual Preset Software
AW-SF300
AW-SF300 enables the management and control of visual presets through an intuitive GUI interface incorporating photos and layout diagrams assigned by the user. Simply set your presets, then touch the area on screen to move the selected cameras to that area.

Remote Operation Panel
AK-HRP250 / AK-HRP1010
Ideal for multi-camera shoots that incorporate PTZ and non-PTZ cameras, these advanced remote control panels allow for accelerated fine-tuning of camera color and shading.

Easy IP
Featuring a new GUI, Easy IP is a free proprietary setup tool that accompanies Panasonic PTZ cameras. The camera picture display has an additional column for the camera list, making Easy IP quite versatile. Couple that with firmware updates, ID signal and auto IP setup features and the PTZ camera becomes even more powerful.

BUILT-IN WEB BROWSER
When your camera is on the network, you can set-up and control it via a web browser on a PC, Mac or mobile device such as an iPhone, iPad or Android device. This is a free, yet powerful option for camera control and setup.

Driver Software
PTZ Virtual USB Driver
With the free PTZ Virtual USB Driver software, you can convert select Panasonic PTZ cameras on your network into super webcams.

- Allows you to use select Panasonic professional PTZ cameras on your network as USB cameras
- Up to 5 cameras can be registered
- Automatic camera discovery and network settings
- Compatible with all PTZ models as well as the AG-UMR20, AG-UCK20, AG-CX10 and AG-CX50.
