

Panasonic KV-S7097 Outstanding Light Production Scanner

The Panasonic KV-S7097, chosen by Buyers Lab analysts as winner of a Summer 2018 Pick for Outstanding Light Production Scanner, offers...

- Exceptional media handling and throughput technology
- Optimized scanning workflows through Image Capture Plus
- Intervention-free scanning for mixed batches
- Control sheet support

In production environments, the name of the game is getting information out of paper and into the appropriate workflow or business software as fast as possible. With a 200-sheet ADF, intelligent throughput technology, robust on-board image processing features, and productivity-enhancing software combined with triple-digit scan speeds, the Panasonic KV-S7097 is exceptionally good at getting information to the right destination.

“The KV-S7097 leverages intelligent double-feed detection technology and a double-feed skip button right on the control panel so operators can power through little hiccups without having to waste too much time, keeping information flowing,” said Lee Davis, Editor of Scanner and Software Evaluation for KeyPoint Intelligence - Buyers Lab. “The control sheet feature is also very convenient. By placing a control sheet encoded with scanning instructions between unique batches in the ADF, users can apply different job settings to different batches without having to pause the job.”

About **Keypoint Intelligence - Buyers Lab**

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments

About **Buyers Lab Pick Awards**

Buyers Lab Picks stand alone in the industry as hard-earned awards based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab's Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
