Terms and illustrations in these instructions

In these instructions, the names and terms are referred as follows.

[CAUTION]: Conditions that may result in minor or moderate injury.

[NOTE]: Useful and helpful information.

• “Windows 10 Pro 64-bit” as “Windows” or “Windows 10”

This manual explains operation procedures using the touchpad or mouse as typical examples. In addition, you can touch the display screen to operate the computer.

When using the touch operation, please replace the terms as described below, and read the instructions.

Operation terms to be replaced:
- Click → Touch

[ ] (Settings): Click [ ] (Start) and then click [ ] (Settings).

[ ]: Page in these Operating Instructions.

[ ]: Reference to the on-screen manuals.

Please read these instructions carefully before using this product, and save this manual for future use. Update the on-screen manuals.
Safety Precautions

To reduce the risk of injury, loss of life, electric shock, fire, malfunction, and damage to equipment or property, always observe the following safety precautions.

Explanation of symbol word panels
The following symbol word panels are used to classify and describe the level of hazard, injury, and property damage caused when the denotation is disregarded and improper use is performed.

**DANGER**
Denotes a potential hazard that will result in serious injury or death.

**WARNING**
Denotes a potential hazard that could result in serious injury or death.

**CAUTION**
Denotes a hazard that could result in minor injury.

**NOTICE**
Denotes a hazard that could result in property damage.

The following symbols are used to classify and describe the type of instructions to be observed.

This symbol is used to alert users to a specific operating procedure that must not be performed.

This symbol is used to alert users to a specific operating procedure that must be followed in order to operate the unit safely.

---

**DANGER**
Precautions on the Battery Pack

Electrolyte leakage, generation of heat, ignition or rupture of the Battery Pack may result.

- **Do Not Throw the Battery Pack into a Fire or Expose It to Excessive Heat**
- **Do Not Deform, Disassemble, or Modify the Battery Pack**
- **Do Not Short the Positive (+) and Negative (-) Contacts**
  - Do not place the battery pack together with articles such as necklaces or hairpins when carrying or storing.
- **Do Not Apply Shocks to the Product by Dropping It, Applying Strong Pressure to It, etc.**
  - If this product is subjected to a strong impact, remove the battery pack from the computer immediately.
- **Do Not Charge the Battery Using Methods Other Than Those Specified**
- **Do Not Use the Battery Pack with Any Other Product**
  - The battery pack is rechargeable and was intended for the specified product.
- **Do Not Use This Product with a Battery Pack Other Than the One Specified**
  - Use only the specified battery pack with your product.
- **Avoid Extreme Heat (Near the Fire, in Direct Sunlight, for Example)**
- **When the Battery Pack Has Deteriorated or If Abnormal Swelling Occur, Replace It With a New One**
  - Do not continue to use a damaged battery pack.
**DANGER**

**Precautions on the Battery Pack**

Electrolyte leakage, generation of heat, ignition or rupture of the Battery Pack may result.

- If a Malfunction or Trouble Occurs, Immediately Stop Use
  - If the battery pack appears to be damaged or deformed, or if it emits smoke, abnormal odor, excessive heat, or other abnormality, remove it from the computer immediately.

**DANGER**

**Precautions on the Built-in Bridge Battery (for disposal)**

<Only for model with Built-in Bridge Battery>

When disposing the battery, generation of heat, ignition or rupture of the Built-in Bridge Battery may result.

- Handling This Computer
  - Do Not Disassemble the Computer Except When Disposing of It
  - Handling the Built-in Bridge Battery
  - Do Not Short the Positive (+) and Negative (-) Contacts
  - Do Not Throw the Battery into a Fire or Expose It to Excessive Heat
  - Do Not Apply Shocks to the Built-in Bridge Battery by Dropping It, Applying Strong Pressure to It, etc.
  - Do Not Charge
  - Do Not Use
  - Do Not Deform, Disassemble, or Modify the Built-in Bridge Battery

- Avoid Extreme Heat (Near the Fire, In Direct Sunlight, for Example)

**WARNING**

<Only for model with Built-in Bridge Battery>

Generation of heat, ignition or rupture of the Built-in Bridge Battery may result.

- Do Not Throw This Product Into a Fire or Expose It to Excessive Heat
- Do Not Deform, Disassemble, or Modify This Product
- Do Not Apply Shocks to the Product by Dropping It, Applying Strong Pressure to It, etc.
- Do Not Charge the Battery Using Methods Other Than Those Specified

- Avoid Extreme Heat (Near the Fire, In Direct Sunlight, for Example)
- When the Built-in Bridge Battery Has Deteriorated or If Abnormal Swelling Occur, Contact Your Technical Support Office to Replace the Battery

- Fire or electric shock may result.

- Do Not Do Anything That May Damage the AC Cord, the AC Plug, or the AC Adaptor
  - Do not damage or modify the cord, place it near hot tools, bend, twist, or pull it forcefully, place heavy objects on it, or bundle it tightly
  - Do not continue to use a damaged AC cord, AC plug and AC adaptor.
  - Contact your technical support office for repair.

- Do Not Connect the AC Adaptor to a Power Source Other Than a Standard Household AC Outlet
  - Connecting to a DC/AC converter (inverter) may damage the AC adaptor. On an airplane, only connect the AC adaptor/charger to an AC outlet specifically approved for such use.
## Safety Precautions

**WARNING**

**Fire or electric shock may result.**

- **Do Not Pull or Insert the AC Plug If Your Hands Are Wet**
- **Do Not Disassemble This Product**
  - No user serviceable parts inside this unit. Refer servicing to qualified technician.
- **Do Not Touch This Product In a Thunderstorm If Connected with the AC Cable or Any Other Cables**
- **Do Not Place Containers of Liquid or Metal Objects on Top of This Product**
  - If foreign matter has found its way inside, immediately turn the power off and unplug the AC plug (and remove the battery pack). Then contact your technical support office.

**If a Malfunction or Trouble Occurs, Immediately Stop Use**

- **If the Following Malfunction Occurs, Immediately Unplug the AC Plug and the Battery Pack**
  - This product is damaged
  - Foreign object inside this product
  - Smoke emitted
  - Unusual smell emitted
  - Unusually hot
  - After the above procedure, contact your technical support office for repair.
- **Clean Dust and Other Debris of the AC Plug Regularly**
  - If dust or other debris accumulates on the plug, humidity, etc. may cause a defect in the insulation.
- **Insert the AC Plug Completely**
  - Do not use a damaged plug or loose AC outlet.

**Fire or electric shock may result.**

- **Close the Connector Cover Tightly**
  - When Using This Product Where Is a Lot of Water, Moisture, Steam, Dust, Oily Vapors, etc.
  - If foreign matter has found its way inside, immediately turn the power off and unplug the AC cord, and then remove the battery pack. Then contact your technical support office.
- **Turn the Power off Beforehand when Entering Locations, Such as a Gas Station Where Inflammable Gases Are Generated**
  - Such gases may be ignited.

**Burns or low-temperature burns may result.**

- **Do Not Use This Product in Close Contact With Your Body For a Long Period of Time**
  - Do not use this product with its heat-emitting parts in close contact with your body for a long period of time.
  - Low-temperature burns may result.
- **Do Not Touch the Surface of the AC Adaptor Continuously While Using/Charging**
  - Burns may result.
- **Do Not Place the Product in a Bag or Case While It is Turned On**
  - Doing so may cause the product to overheat and result in burns.

**Detrimental health effects on your body may result.**

- **Do Not Turn the Volume Up Too Loud When Using Headphones**
  - Listening at high volumes that overstimulate the ear for long periods of time may result in loss of hearing.

<Only for model with wireless WAN>

- **Do Not Leave a nanoSIM Card Within Reach of Infants**
  - In case of swallowing, consult a doctor immediately.
### WARNING

Radio waves transmitted from this product may affect the surrounding area.

- **Do Not Use This Product near Automatic Control Devices, Such As Automatic Doors And Fire Alarms**
  - Automatic control devices may malfunction, resulting in accidents.

- **Turn the Power Off on an Airplane**
  - For use on a plane, follow the airline’s instructions.
  - The safety of navigation may be compromised.

- **Turn the Power Off in Hospitals or at Locations Where Medical Equipment is Present**
  - Do not bring this product into operating rooms, intensive care units, CCU, etc.
  - Medical electrical equipment may be affected, and malfunction may occur, resulting in accidents.

- **Turn the Power Off in Crowded Locations, Such As a Crowded Train, Where There May Be a Person with a Cardiac Pacemaker**
  - The operation of a pacemaker may be affected.

- **Keep This Product at Least 15 cm Away from the Position of an Implantable Pacemaker**
  - The operation of a pacemaker may be affected.

---

### CAUTION

Fire or electric shock may result.

- **Do Not Move This Product While the AC Plug Is Connected**
  - If the AC cord is damaged, unplug the AC plug immediately.

- **Do Not Connect a Telephone Line, or a Network Cable Other Than the One Specified, Into the LAN Port**
  - Do not connect to a network such as the ones listed below.
  - Networks other than 1000BASE-T, 100BASE-TX or 10BASE-T
  - Phone lines (IP phone (Internet Protocol Telephone), Telephone lines, internal phone lines (on-premise switches), digital public phones, etc.)

- **Do Not Subject the AC Adaptor To Any Strong Impact**
  - Do not continue to use the AC adaptor after a strong impact such as being dropped.
  - Contact your technical support office for repair.

- **Do Not Leave This Product in High Temperature Environment for a Long Period of Time**
  - Leaving this product where it will be exposed to extremely high temperatures such as near fire or in direct sunlight may deform the cabinet and/or cause trouble in the internal parts.

- **Hold the Plug When Unplugging the AC Plug**

- **Use Only the Specified AC Adaptor With This Product**
  - Do not use an AC adaptor other than the one supplied (supplied with the unit or one sold separately as an accessory).
### Safety Precautions

#### CAUTION

- This product may fall over or drop, resulting in an injury.

</tr>
</tbody>
</table>

**NOTICE**

- Do not place the computer near a television or radio receiver.
- Keep the computer away from magnets. Data stored on the flash memory may be lost.
- This computer is not intended for the display of images for use in medical diagnosis.
- This computer is not intended for a use with connection of medical equipment for the purpose of medical diagnosis.
- Panasonic shall not be liable for loss of data or other incidental or consequential damages resulting from the use of this product.
- Do not touch the terminals on the battery pack. The battery pack may no longer function properly if the contacts are dirty or damaged.
- Do not expose the battery pack to water, or allow it to become wet.
- If the battery pack will not be used for a long period of time (a month or more), charge or discharge (use) the battery pack until the remaining battery level becomes 30% to 40% and store it in a cool, dry place.
- This computer prevents overcharging of the battery by recharging only when the remaining power is less than approx. 95% of capacity.
- The battery pack is not charged when the computer is first purchased. Be sure to charge it before using it for the first time. When the AC adaptor is connected to the computer, charging begins automatically.
- Should the battery leak and the fluid get into your eyes, do not rub your eyes. Immediately flush your eyes with clear water and see a doctor for medical treatment as soon as possible.
NOTE

- The battery pack may become warm during recharging or normal use. This is completely normal.

- Recharging will not commence if internal temperature of the battery pack is outside of the allowable temperature range (0 °C to 50 °C (32 °F to 122 °F)). (Operating Instructions - Reference Manual “Basic Operation” “Battery Power”) Once the allowable range requirement is satisfied, charging begins automatically. Note that the recharging time varies based on the usage conditions. (Recharging takes longer than usual when the temperature is 10 °C (50 °F) or below.)

- If the temperature is low, the operating time is shortened. Only use the computer within the allowable temperature range.

- The battery pack is a consumable item. If the amount of time the computer can be run by using a particular battery pack becomes dramatically shorter and repeated recharging does not restore its performance, the battery pack should be replaced with a new one.

- When transporting a spare battery inside a package, briefcase, etc., it is recommended that it be placed in a plastic bag so that its contacts are protected.

- Always power off the computer when it is not in use. Leaving the computer on when the AC adaptor is not connected will exhaust the remaining battery capacity.

- <Only for model with Built-in Bridge Battery>
  To minimize deterioration of the built-in bridge battery, connect the computer to the AC adaptor and recharge it for approximately 2 hours about once every year.

---

This product is not intended for use as, or as part of, nuclear equipment/systems, air traffic control equipment/systems, aircraft cockpit equipment/systems, systems that are involved with ensuring human life or safety. Panasonic will not be responsible for any liability resulting from the use of this product arising out of the foregoing uses.

AIRCRAFT COCKPIT EQUIPMENT/SYSTEMS include Class2 Electrical Flight Bag (EFB) Systems and Class1 EFB Systems when used during critical phases of flight (e.g., during take-off and landing) and/or mounted on to the aircraft. Class1 EFB Systems and 2 EFB Systems are defined by FAA: AC (Advisory Circular) 120-76A or JAA: JAA TGL (Temporary Guidance Leaflets) No.36.

As defined by the European Medical Device Directive (MDD) 93/42/EEC. Panasonic cannot guarantee any specifications, technologies, reliability, safety (e.g. Flammability/Smoke/Toxicity/Radio Frequency Emission, etc.) requirements related to aviation standards that exceed the specifications of our COTS (Commercial-Off-The-Shelf) products.

This computer is not intended for use in medical equipment including life-support systems, air traffic control systems, or other equipment, devices or systems that are involved with ensuring human life or safety. Panasonic cannot be held responsible in any way for any damages or loss resulting from the use of this unit in these types of equipment, devices or systems, etc. As with any portable computer device precautions should be taken to avoid any damage. The following usage and handling procedures are recommended.

Before putting the computer away, be sure to wipe off any moisture.

Regulatory Information

Information to the User / Informations destinées aux utilisateurs

<Only for model with wireless LAN/Bluetooth>

This product and your Health

This product, like other radio devices, emits radio frequency electromagnetic energy. The level of energy emitted by this product however is far much less than the electromagnetic energy emitted by wireless devices like for example mobile phones.

Because this product operates within the guidelines found in radio frequency safety standards and recommendations, we believe this product is safe for use by consumers. These standards and recommendations reflect the consensus of the scientific community and result from deliberations of panels and committees of scientists who continually review and interpret the extensive research literature.

In some situations or environments, the use of this product may be restricted by the proprietor of the building or responsible representatives of the organization. These situations may for example include:

- Using this product on board of airplanes, or
- In any other environment where the risk of interference to other devices or services is perceived or identified as harmful.

If you are uncertain of the policy that applies on the use of wireless devices in a specific organization or environment (e.g. airports), you are encouraged to ask for authorization to use this product prior to turning on the product.

Regulatory Information

We are not responsible for any radio or television interference caused by unauthorized modification of this product. The correction of interference caused by such unauthorized modification will be the responsibility of the user. We and its authorized resellers or distributors are not liable for damage or violation of government regulations that may arise from failing to comply with these guidelines.

<Uniquement les modèles avec réseau local sans fil et/ou Bluetooth>

Ce produit et votre santé

Ce produit, comme tout autre appareil radio, émet de l’énergie radioélectrique. Toutefois, la quantité d’énergie émise par ce produit est beaucoup moins importante que l’énergie radioélectrique émise par des appareils sans fil tels que les téléphones portables. L’utilisation de ce produit ne comporte aucun risque pour le consommateur du fait que cet appareil opère dans les limites des directives concernant les normes et les recommandations de sécurité sur les fréquences radio. Ces normes et recommandations reflètent le consensus de la communauté scientifique et résultent de délibérations de jurys et comités de scientifiques qui examinent et interprètent continuellement les nouveautés de la vaste littérature sur les recherches effectuées. Dans certaines situations ou environnements, l’utilisation de ce produit peut être restreinte par le propriétaire du bâtiment ou par les représentants responsables de l’organisation. Ces situations peuvent être les suivantes par exemple :

- À bord d’un avion, ou
- Dans tout autre environnement où les risques d’interférence sur d’autres appareils ou services sont perçus ou identifiables comme dangereux.

Si vous n’êtes pas sûr de la réglementation applicable à l’utilisation d’appareils sans fil dans une organisation ou un environnement spécifique, (par exemple dans un aéroport) nous vous invitons à demander l’autorisation d’utiliser ce produit avant sa mise en marche.

Informations concernant la réglementation

Nous déclinons toute responsabilité pour toute interférence radio ou télévision causée par des modifications non autorisées apportées à ce produit. La correction d’interférences causées par de telles modifications non autorisées sera la seule responsabilité de son utilisateur. Nous, les revendeurs officiels et les distributeurs ne sommes pas responsables de tout dégât ou de toute violation des règlements de l’État pouvant découler du non-respect de ces directives.
Camera Light / Lumière de la caméra

<For model with rear camera>

**CAUTION**
- The light from the LED is strong and can injure human eyes.
  Do not look directly at the LEDs with naked eyes.
- Possibly hazardous optical radiation emitted from this camera LED light.
  Do not stare at operating camera in less than 351 mm distance.
  Otherwise may be harmful to the eyes.

<Pour les modèles munis d’une caméra arrière>

**ATTENTION**
- La lumière de la diode LED est forte et peut blesser l’œil humain.
  Ne regardez pas directement les LED avec les yeux non protégés.
- Possibles radiations optiques dangereuses émise par la lumière de la LED de cette caméra.
  Ne regardez pas dans la caméra en fonctionnement à moins de 351 mm de distance.
  Vous risqueriez vous blesser les yeux.

Lithium Battery / Pile au lithium

**Lithium Battery!**
This computer contains a lithium battery to enable the date, time, and other data to be stored. The battery should only be exchanged by authorized service personnel.

**Warning!**
A risk of explosion may possibly occur.

**Pile au lithium!**
Le micro-ordinateur renferme une pile au lithium qui permet de sauvegarder certaines données, notamment la date et l’heure. La pile ne doit être remplacée que par un technicien qualifié.

**Danger !** Risque d’explosion en cas de non respect de cette mise en garde!

<Only for model with Barcode Reader>

**Laser Devices**

This equipment is using lasers that comply with US21CFR1040.10, 1040.11, EN 60825-1:2007 and IEC60825-1:2007 regulations.
The laser is a “Class 2” laser which is indicated on the label for this product.” Class 2 laser readers use a low power, visible light diode. As with any very bright light source, such as the sun, the user should avoid staring directly into the light beam. Momentary exposure to a Class 2 laser is not known to be harmful.

Caution-Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

- **Labeling/Marking**

  **Location of aperture**

  **Beam Divergence**
  - Vertical angle: 30 degree
  - Horizontal angle: 36 degree
  
  650 nm, 1 mW MAX, 16.8 ms
Battery Pack / Batterie

CAUTION:
Risk of Explosion if Battery is replaced by an Incorrect Type. Dispose of Used Batteries According to the Instructions.

ATTENTION:
Il y a risque d’explosion si la batterie est remplacée par une batterie de type incorrect. Mettre au rebut les batteries usagées conformément aux instructions.

Notice

- Dispose of used built-in battery according to local ordinances and/or regulations.
- Do not expose this computer to temperatures greater than 60°C {140°F}.

Disposal of Old Equipment and Batteries

Only for European Union and countries with recycling systems

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points in accordance with your national legislation. By disposing of them correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment.

For more information about collection and recycling, please contact your local municipality. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

(Note for the battery symbol (bottom symbol)):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Energy Star

As an ENERGY STAR® Partner, Panasonic Corporation has determined that this product meets ENERGY STAR® guidelines for energy efficiency. By enabling available power management settings, Panasonic computers enter a low-power sleep mode after a period of inactivity, saving the user energy.

<For U.S.A.>
To learn more about power management, please visit the web site: www.energystar.gov/index.cfm?c=power_mgt.pr_power_management

Outline of the International ENERGY STAR® Office Equipment Program
The international ENERGY STAR® Office Equipment Program is an international program that promotes energy saving through the use of computers and other office equipment. The program backs the development and dissemination of products with functions that effectively reduce energy consumption. It is an open system in which business proprietors can participate voluntarily. The targeted products are office equipment such as computers, displays, printers, facsimiles, and copiers. Their standards and logos are uniform among participating nations.

<For U.S.A.>
For information about ENERGY STAR®, refer to the following web site:
Web Site: www.energystar.gov
Federal Communications Commission Radio Frequency Interference Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the Panasonic Service Center or an experienced radio/TV technician for help.

Warning

To assure continued compliance, use only shielded interface cables when connecting to a computer or peripheral. Also, any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning:

- This equipment is provided with PC Card slot that could be used with wireless transmitters, which will be specifically recommended when they become available.
- Other third-party wireless transmitters have not been RF exposure evaluated for use with this computer and may not comply with FCC RF exposure requirements.

<Only for model with wireless LAN/wireless WAN/Bluetooth>

- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
- This equipment may not be collocated or operated with any other antenna or transmitter.
- This device meets the government’s requirements for exposure to radio waves.

The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.

* Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

<Only for model with wireless LAN>

About FCC ID Number

SAR information on this product is on file with the FCC and can be found by searching for the product’s FCC ID Number at http://www.fcc.gov/oet/ea/fccid. To find the FCC ID number for your product, first remove the battery pack from the tablet.

The FCC ID number is printed on the nameplate underneath.

Responsible Party: Panasonic Corporation of North America
Two Riverfront Plaza
Newark, NJ 07102
Support Contact: http://business.panasonic.com/support-computertables

USA Only: Disposal may be regulated in your community due to environmental considerations. For disposal or recycling information, please visit Panasonic website: http://www.panasonic.com/environmental or call 1-888-769-0149
A lithium ion battery that is recyclable powers the product you have purchased. Please call 1-800-8-BATTERY for information on how to recycle this battery.

L’appareil que vous vous êtes procuré est alimenté par une batterie au lithium-ion. Pour des renseignements sur le recyclage de la batterie, veuillez composer le 1-800-8-BATTERY.

For Used in Motor Vehicle / Pour L’utilisation Dans Un Véhicule Motorisé

Warning: Notebook Computer may be installed in a motor vehicle and visible to the driver only if used to support vehicle related functions such as vehicle information, system control, rear or side observation and navigation. If used for entertainment purpose, such as television reception or video play, it must be installed to the rear of the driver’s seat where it will not be visible, directly or indirectly, to the operator of the motor vehicle. Check with individual state/provincial laws to determine lawful use of this product while operating within a motor vehicle.

Avertissement : L’ordinateur bloc-notes peut être installé dans un véhicule motorisé et dans le champ de vision du conducteur uniquement en tant que dispositif d’aide aux fonctions du véhicule, comme par exemple pour fournir des informations sur le véhicule, comme dispositif de contrôle de système, pour l’observation à l’arrière ou sur les côtés du véhicule, ainsi que pour fournir de l’information routière. Pour toute utilisation à fin de divertissement, comme par exemple pour regarder la télévision ou jouer à des jeux vidéo, il doit être installé à l’arrière du siège du conducteur, en un emplacement où il ne sera pas visible, ni directement ni indirectement, pour le conducteur du véhicule motorisé. Vérifiez les lois fédérales et nationales qui régissent l’utilisation légale de cet appareil à l’intérieur d’un véhicule motorisé.

External Antenna

FCC RF Exposure Warning:
• This equipment is provided with external antenna connector(s) for connection to optional Car Mounter or Port Replicator for mobile external mounted antenna(s). External antenna(s) must be professionally installed and cannot exceed recommended maximum antenna gain as described in individual provided supplement instructions for wireless transmitters.

The Car Mounter is provided with Radiall/Larsen WLAN whip antenna, type NMO5E2400BKTNC with 5 dBi antenna gain. The maximum allowable antenna gain for the external WWAN base whip antenna for the 700 MHz, 850 MHz, 1700 MHz and 1900 MHz bands are 6 dBi, 9 dBi at 2500 MHz and 2600 MHz bands. Also, user must maintain minimum 20 cm spacing between external antenna(s) and all person’s body (excluding extremities of hands, wrist and feet) during wireless modes of operation.

This product contains a Coin Cell Lithium Battery which contains Perchlorate Material - special handling may apply.
See www.dtsc.ca.gov/hazardouswaste/perchlorate/
For Canada

Canadian ICES-003
CAN ICES-3(B)/NMB-3(B)

7-M-2

<Only for model with wireless LAN/Bluetooth>

ISED Canada
This product complies with ISED Canada's licence-exempt RSSs.
Operation is subject to the following two conditions;
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of
the device.

<Ne s’applique qu’aux modèles avec technologie Bluetooth/LAN sans fil/WAN sans fil>
ISED Canada
Cet équipement est conforme aux normes sans licence RSS d'ISED Canada.
Son fonctionnement est soumis aux deux conditions suivantes :
(1) ce dispositif ne peut produire de brouillage, et
(2) ce dispositif doit accepter le brouillage, y compris le brouillage pouvant entraîner le fonctionnement non
désiré de l’appareil.

<Only for model with wireless LAN>
This product (local network devices) for the band 5150-5250 MHz is only indoor usage to reduce potential
for harmful interference to co-channel Mobile Satellite systems.
High power radars are allocated as primary users (meaning they have priority) of 5250-5350 MHz and 5650-
5850 MHz and these radars could cause interference and/or damage to LELAN devices.

<Ne s’applique qu’aux modèles avec technologie LAN sans fil>
Cet appareil (pour réseaux locaux radioélectriques) dans les bandes de fréquences 5150-5250 MHz est
réervé à une utilisation à l'intérieur afin de réuire le risque d’interférence avec les systèmes satellites mobiles
bicaux.
Les radars forte puissance sont désignés comme étant les premiers utilisateurs (c’est-à-dire qu’ils ont la prio-
rité) des bandes de fréquences 5250-5350 MHz et 5650-5850 MHz. Ces stations radars peuvent provoquer
des interférences et/ou des dommages à ce périphérique.

This device has been designed to operate with the Radiall/Larsen whip antenna, type NMO5E2400BKTNC
WLAN antenna having a maximum gain of 5 dB. A WLAN Antenna having a higher gain is strictly prohibited
per regulations of ISED Canada. The Required antenna impedance is 50 ohms.
To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that
the equivalent isotropically radiated power (EIRP) is not more than that required for successful communica-
tion.

Cet appareil est conçu pour opérer avec l’antenne-fouet Radiall/Larsen, type WLAN NMO5E2400BKTNC,
ayant un gain maximum de 5 dB. Les règlements ISED Canada interdisent l’utilisation d’une antenne WLAN
dont le gain serait supérieur à cette limite. L’antenne doit avoir une impédance de 50 ohms.
Afin de réduire le risque d’interférence radioélectrique aux autres utilisateurs des bandes de fréquences, le
type d’antenne et son gain doivent être tels que la puissance isotrope rayonnée équivalente (PIRE) n’est
pas plus élevée que le niveau requis pour assurer la communication.

<Only for model with wireless LAN/wireless WAN/Bluetooth>
- This computer complies with ISED Canada radiation exposure limits set forth for an uncontrolled envi-
nronment.
- This PC with WLAN and/or Bluetooth transmitters installed, has been approved for portable operation
and does not require any minimum spacing be provided between antennas and all person’s body.

<Ne s’applique qu’aux modèles avec technologie Bluetooth/LAN sans fil/WAN sans fil>
- Cet équipement est conforme aux limites d’exposition aux rayonnements ISED Canada établies pour un
environnement non contrôlé.
- Ce PC avec émetteurs WLAN et/ou Bluetooth a été approuvé à des fins d’opération mobile ; aucun es-
pace minimum entre les antennes et le corps de l’utilisateur n’est requis.
Regulatory Information

FOR USE WITH MODEL NO.: CF-AA6413C, CF-AA5713A
POUR UTILISER AVEC MODÈLE: CF-AA6413C, CF-AA5713A

<Only for model with external antenna>

External Antenna
This device has been designed to operate with the WWAN antenna having a maximum gain of 6 dBi for the 700 MHz, 850 MHz, 1700 MHz, 1900 MHz bands and 9 dBi for the 2500 MHz bands. WWAN Antenna having a higher gain is strictly prohibited per regulations of ISED Canada. The Required antenna impedance is 50 ohms.
To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than that required for successful communication.

<Uniquement pour les modèles avec l’antenne externe>

Antenne Externe
Ce dispositif a été conçu pour fonctionner avec l’antenne de réseau étendu sans fil (WWAN) avec un gain maximum de 6 dBi dans les bandes de 700 MHz, 850 MHz, 1 700 MHz ainsi que 1 900 MHz et 9 dBi de dans les bandes de 2 500 MHz. Les règlements ISED Canada interdisent l’utilisation d’une antenne WWAN dont le gain serait supérieur à cette limite. L’antenne doit avoir une impédance de 50 ohms.
Afin de réduire le risque d’interférence radioélectrique aux autres utilisateurs des bandes de fréquences, le type d’antenne et son gain doivent être tels que la puissance isotrope rayonnée équivalente (PIRE) n’est pas plus élevée que le niveau requis pour assurer la communication.

For Australia

For Used in Motor Vehicle
Warning: Notebook Computer may be installed in a motor vehicle and visible to the driver only if used to support vehicle related functions such as vehicle information, system control, rear or side observation and navigation. If the Notebook Computer is to be used for work or entertainment purposes, such as television reception, video play or other work programs, it must be installed in a position where it will NOT:
(a) be visible, directly or indirectly, to the operator of the motor vehicle; or
(b) cause distraction to drivers of other motor vehicles.
Check with individual state laws to determine lawful use of this product while operating within a motor vehicle. If the visual display unit is, or is part of, a driver’s aid, above rule is not applied. “Driver’s aid” includes closed-circuit television security cameras, dispatch systems, navigational or intelligent highway and vehicle system equipment, rear view screens, ticket-issuing machines and vehicle monitoring devices.
For India

Declaration of Conformity with the requirements of the e-waste (Management and Handling) Rules, 2011.
(adopted by Notification S.O.1035(E) of Ministry of Environment and Forests)
The Product is in conformity with the requirements of Rule 13 of the e-waste Rules.
The content of hazardous substance with the exemption of the applications listed in SCHEDULE II of the e-waste Rules:
1. Lead (Pb) - not over 0.1% by weight;
2. Cadmium (Cd) - not over 0.01% by weight;
3. Mercury (Hg) - not over 0.1% by weight;
4. Hexavalent chromium (Cr6+) - not over 0.1% by weight;
5. Polybrominated biphenyls (PBBs) - not over 0.1% by weight;
6. Polybrominated diphenyl ethers (PBDEs) - not over 0.1% by weight.

For the purpose of recycling to facilitate effective utilization of resources, please return this product to a nearby authorized collection center, registered dismantler or recycler, or Panasonic service center when disposing of this product.
Please see the Panasonic website for further information on collection centers, etc.

Latest Information on Windows 10

When Microsoft® Windows® 10 is updated, the screen display or operation procedures may be changed.
For the latest information on Windows 10, see the following web page.
http://pc-dl.panasonic.co.jp/itn/addendum/
1 Attaching the pen/stylus (included) to the computer

Use the tether to attach the pen/stylus (included) to the computer so you will not lose it. There is a hole (A) to attach it.

CAUTION
- Do not pull the tether with excessive force. The pen/stylus may hit the computer, person’s body or other objects when released.

2 Connect your computer to a power outlet

1 Open the cover.
2 Connect your computer to a power outlet. The battery charging starts automatically.

CAUTION
- Do not disconnect the AC adaptor until the first-time operation procedure is completed.
- When using the computer for the first time, do not connect any peripheral device (including wired LAN cable) except the battery pack and AC adaptor.
- Handling the AC adaptor
  Problems such as sudden voltage drops may arise during periods of thunder and lightning. Since this could adversely affect your computer, an uninterruptible power source (UPS) is highly recommended unless running from the battery pack alone.
- When the DC plug is not connected to the computer, disconnect the AC cord from your electrical outlet. Power is consumed simply by having the AC adaptor plugged into an electrical outlet.
3 Open the display

1. Pull out the handle.
   - If you do not pull out the handle before opening the display, the computer may fall over due to the weight of the display.
2. Push down on the latch (B), and pull it out to release it.
3. Hold the corners with both hands, and lift the display slightly.
4. Hold the side of the computer with either of your hands and then lift up the display to open.

**CAUTION**
- Do not open the display wider than necessary (180° or more), and do not apply excessive pressure to the LCD. Do not open or close the computer holding the edge of the LCD segment.

4 Turn on the computer

Press and hold the power switch (C) until the power indicator (D) lights.

**CAUTION**
- Do not press the power switch repeatedly.
- The computer will be forcibly turned off if you press and hold the power switch for four seconds or longer.
- Do not perform the following operation until the First-time Operation is completed.
  - Touching the release lever (E) and detach lock (F)
  - Detaching the tablet from keyboard base
  - Connecting or disconnecting the AC adaptor
  - Pressing the power switch
  - Closing the display
  - Any changes from the default setting of the Setup Utility
- Once you turn off the computer, wait for ten seconds or more before you turn on the computer again.
- When the CPU temperature is high, the computer may not start up to prevent overheating of the CPU. Wait until the computer cools down, and then turn the power on again. If the computer does not power on even after cooling down, contact Panasonic Technical Support (Operating Instructions - Reference Manual).
5 Setup Windows

Follow the on-screen instructions.

- The computer restarts several times.
- After the computer is turned on, the screen remains black or unchanged for a while, but this is not a malfunction. Wait for a moment until the Windows setup screen appears.
- During setup of Windows, use the touchpad and clicking to move the pointer and to click an item.
- Setup of Windows will take approximately 5 minutes. Go to the next step, confirming each message on the display.
- You can set the Wireless Network after the setup of Windows is complete.
  - If “Let’s connect you to a network” is displayed, you can select [Skip for now].
- We recommend that you set the password after the setup of Windows is complete.

CAUTION

- You can change the user name, image and security setting after setup of Windows.
- Use standard characters as a computer name: numbers 0 through 9, uppercase and lowercase letters from A to Z, and the hyphen (-) character. Do not use the following words and characters for user name: CON, PRN, AUX, CLOCK$, NUL, COM1 to COM9, LPT1 to LPT9, LPT, &, space.
  - If the error message “The computer name is not valid” appears, check if characters other than the above are not entered. If the error message still remains on the display, set the key entry mode to English (“ENG”) and enter characters.

6 Restart the computer

1. Click (Start).
2. Click (Power) - [Restart].

- A portion of the Panasonic PC Settings Utility functions will be enabled after the computer restarts.

NOTE

- When the “Emergency notification setting” screen appears, read the on-screen messages carefully. Follow the on-screen instructions. You can set the “Emergency notification setting” after the setup of Windows is complete.
First-time Operation

7 Update the on-screen manual

1. Connect to the internet. Sign in to Windows as an administrator.
   For further information, refer to Connect to a network.
2. Update the on-screen manual.
   Click (Start) - [Panasonic PC Manual Selector].
   Follow the on-screen instructions.

8 Create a recovery disc

A recovery disc allows you to install OS and restore its factory default condition, in case, the recovery partition of the flash memory is damaged.
We recommend creating a recovery disc before you begin using the computer.
Refer to Operating Instructions - Reference Manual “Important Operation/Settings” “Create a Recovery Disc” about creating the disc.

NOTE

- To set the password, proceed as follows.
  1. Click (Start) - (Settings) - [Accounts] - [Sign-in options].
  2. Click [Add] under “Password”.
- Set the key entry mode to English (“ENG”) and enter characters.
  The keyboard layout can be added or changed in the following steps.
  1. Click (Start) - (Settings) - [Time & language] - [Region & language].
  2. Click a language and click [Options].
  3. Click [Add a keyboard] and choose a keyboard from the list.
- Remember your password. If you forget the password, you cannot use Windows. Creating a password reset disk beforehand is recommended.
- Depending on the version of Windows 10, may be added on the icons such as the C drive on Windows Explorer if the encryption is not completed. The computer can be used in this state. will disappear when the encryption is completed, or the “Device encryption” function is set to off.
- PC Information Viewer
  This computer periodically records the management information of the flash memory, etc. The maximum data volume for each record is 1024 bytes.
  This information is only used for estimating the cause in the case when the flash memory goes down by any possibility. They are never sent to outside via network nor used for any other purpose except for the purpose described above.
  To disable the function, add the check mark for [Disable the automatic save function for management information history] in [Hard Disk Status] of PC Information Viewer, and click [OK].
  Then follow the on-screen instructions.
  (Operating Instructions - Reference Manual “Troubleshooting” “Checking the Computer’s Usage Status”)
Detaching the tablet from the keyboard base

When detaching the tablet from the keyboard base while it is turned on, note the following points.

**CAUTION**
- Before detaching the tablet, confirm the following things.
  - Save the necessary data.
  - Close files you have opened from removable disks and network drives.
  - Remove peripheral devices connecting to the tablet.
- Do not detach the tablet in the conditions below.
  - When the SD Memory Card indicator is on.
  - When playing/recording audio files or displaying motion video such as MPEG files.
  - When playing a DVD-Video.
  - When writing to a disc.
  - When using communication software or network functions.

To detach the tablet while it is turned on, perform the following.

**CAUTION**
- Before detaching the tablet, check the remaining battery power by pressing the **Fn** and **F9** keyboard keys at the same time.
  When the battery status of the “Battery” (on the tablet) becomes 5% or less, cannot detach the tablet from the keyboard base.

Click in the taskbar of the desktop screen, and then click **Eject Keyboard Base Device**.
“Undock Complete” appears at the bottom right of the screen.

The same operation can be performed by pressing the **Fn** and **1** keyboard keys at the same time.

**NOTE**
- To cancel detachment, press the **Fn** and **1** keyboard keys at the same time after the above operation.
  OS processing by pressing the **Fn** and **1** keyboard keys at the same time requires some time. If the keys are pressed in succession in a short period of time, the key inputs are ignored. If the key inputs are ignored, wait for a while, and press the **Fn** and **1** keyboard keys at the same time again.
Detaching the tablet from the keyboard base

② Release the detach lock (A).
③ Slide the release lever (B) in the direction of the arrow.

④ Detach the tablet from the keyboard base.

CAUTION
● When detaching the tablet from the keyboard base, hold the position at the locations dashed line circled in the illustration.
● Attach/detach the tablet on a flat surface.
● When attaching/detaching the tablet, securely hold the keyboard.

NOTE
● Do not detach the tablet in the rain.
Attaching the tablet to the keyboard base

**NOTE**
- Clean the Tablet terminals (C) with a dry cloth. (Attached dust may cause a contact failure.)

1. Push the tablet at the locations illustrated by the dashed area in a downward direction. Release lever (B) will return to the direction of the arrow shown in 1.

**CAUTION**
- When inserting the tablet, place the keyboard base on a hard stable surface or hold the bottom side of the keyboard base securely with your hand.

2. Raise the detach lock (A) above to the locked position.
Attaching the tablet to the keyboard base

**NOTE**
- Confirm that the orange-colored signs near the detach lock and the release lever can not be seen.

**NOTE**
- Do not attach the tablet in the rain.

The tablet can be attached facing the reverse direction.

**CAUTION**
- Depending on the shape of the tablet's rear, you may not be able to operate the unit with the tablet attached in the direction illustrated. Be sure to verify this before actual use.
