SEAMLESS GLOBAL CONNECTIVITY

## Introducing seamless, global connectivity for your TOUGHBOOK.

For over 20 years, Panasonic has redefined mobility for global workers. Staying connected is key to staying productive and staying profitable. As mobile technology becomes ever more crucial to the way we work, today's dynamic and innovative companies are looking for a way to keep workers connected—anytime, anywhere. To help serve those workers, Panasonic is proud to introduce a connectivity service designed to take work to the next level and carry on the Panasonic Mobility legacy.

Informed by the same purpose-built philosophy as Panasonic's market-defining rugged mobile technology, P.180 offers a seamless end-to-end platform for organizations that rely on global connectivity to get work done.

Staying connected is key to staying productive and staying profitable.

P.180

## Seamless global connectivity

With service in more than 180 countries and growing, including LTE access in select international destinations, P.180 is able to deliver a single, globally scalable connectivity platform with predictable pricing and no roaming fees.

With P.180's eSIM technology, workers can stay connected across geographies and devices, no matter where the job takes them. P.180 gives you the stable, reliable and fast connectivity your organization needs to stay competitive.

P.180 is designed for use with select Panasonic TOUGHBOOK® laptops, tablets, 2-in-1s and handhelds—including the TOUGHBOOK 54, 33, 20, L1, T1, N1 and TOUGH PAD® FZ-G1—and is easy to purchase, deploy and service.

## The insights and control you're looking for.

P.180 offers an end-to-end solution for managing your data and connected devices, scalable to the needs of your institution. The P.180 management portal is designed to provide simple and robust control over your organization's daily connectivity needs.

Through the P.180 management portal, customers can manage users, make data plan changes and add devices to ensure that their mobile workforce has reliable connectivity when and where they need it.

The P.180 management portal also offers real-time analytics and custom reports that align with the needs and structure of each individual organization. This functionality delivers unparalleled insights to how work is getting done and how data is being shared across your workforce.

## Pricing that works for you.

Personalized service is a hallmark of the Panasonic Mobility brand, and with P.180, we're continuing that legacy. Panasonic is committed to ensuring that every P.180 customer gets the service that makes sense for their organization. A P.180 Pricing Specialist will review and analyze your mobility application and mobile worker trends, as well as historical data usage, to recommend a plan that delivers the coverage and pricing predictability your business requires.

## A partner you know and trust.

For over two decades, Panasonic has worked closely with its customers to deliver market-leading hardware solutions. With P.180, we've brought that same commitment to understanding our customers' needs and challenges to a revolutionary connectivity service.

P.180 customers get a partner who understands their needs intuitively and a service that offers custom solutions that reflect how work gets done today. After all, it is Panasonic. And with P.180 and Panasonic TOUGHBOOK®, you get the convenience of a one-stop shop for all of your mobility needs.
