

Get More Done in Less Time with TOUGHBOOK® and Dragon® Law Enforcement

Panasonic and Nuance have partnered to provide law enforcement professionals with a faster and more efficient way to complete incident reports and perform other essential tasks — all by voice.

The Nuance® Dragon® Law Enforcement speech recognition solution, now available on Panasonic TOUGHBOOK mobile laptops and tablets, enables officers to dictate incident reports and capture data in real time, simply by speaking, thereby streamlining workflows and increasing officer efficiency.

Spend less time on paperwork, more time protecting and serving.

TOUGHBOOK AND DRAGON® LAW ENFORCEMENT BENEFITS:

-  **Dictate Reports with Ease**
Using Law Enforcement Specific Terms and Phrases
-  **Customization**
with Unlimited Multiple User Profiles on Single Device
-  **Speed Data Entry**
within Records Management Systems
-  **Return Time to Officers**
for Community Policing Initiatives
-  **Improve Report Management**
and Streamline Workflows
-  **Phrase Capture**
to Add Agency Specific Verbiage
-  **Increase Officer Situational Awareness**
in the Patrol Vehicle
-  **Panasonic ProServices Support**
for Deployment

OVERVIEW OF BENEFITS:

- **Dictate Reports with Ease Using Law Enforcement Specific Terms and Phrases**

Create incident reports 3X faster than typing, with up to 99% accuracy using conventions like the NATO phonetic alphabet and a customized vocabulary including vehicle makes and models, as well as U.S., Canadian and Mexican states, provinces and cities.

- **Speed Data Entry Within Records Management Systems**

Use fast and accurate dictation to enter data into RMS and CAD systems or other applications. Officers or support staff simply dictate anywhere they would normally type, and fill and navigate within form fields by voice.

- **Improve Report Management and Streamline Workflow**

Nuance's fast, precise dictation with robust voice command capabilities improves in-car documentation productivity, increases report accuracy, and expedites completion of reports to meet mandated deadlines.

- **Increase Officer Situational Awareness in the Patrol Vehicle**

Voice-driven interaction with TOUGHBOOK devices help officers avoid distracted driving, keeping them heads up in the vehicle and situationally aware.

- **Return Time to Officers for Community Policing Initiatives**

Law enforcement professionals can dictate reports on TOUGHBOOK mobile computers in a fraction of the time it would take typing by hand, enabling them to spend more time visible within the community and on patrol.

- **Phrase Capture to Add Agency Specific Verbiage**

Dragon® Law Enforcement's dictionary includes an additional 3,000 words specific to law enforcement, and the software allows officers to create and capture other unique words specific to their agency. Phrases are added and saved to your user dictionary for future use (i.e. "light 'em up").

- **Customization with Unlimited Multiple User Profiles on Single Device**

With the Nuance Management Center, centrally manage officer profiles and roll-out custom, department wide commands to increase standardization and report quality. No limit to user profiles* per TOUGHBOOK mobile computer. Additionally, profile customizations are stored in the cloud to enable seamless use across multiple devices, when required.

- **Panasonic ProServices Support for Deployment**

Panasonic works with your IT department on installation and set-up of Nuance software on TOUGHBOOK devices. For agencies that keep the TOUGHBOOK mobile computer in the vehicle, officer voice profiles are locally stored on the device. Departments enjoy perpetual access to Dragon® for each license acquired.

- **Supported on all Windows based TOUGHBOOK devices**

Dragon® Law Enforcement speech works with all Panasonic TOUGHBOOK laptops and tablets that are Windows based.

Over 77% of law enforcement professionals surveyed are interested in technology to help with incident reporting

39% of law enforcement professionals spend at least 3-4 hours on reporting duties

Over 50% of an average shift is spent on paperwork

60% of law enforcement professionals say they spend 25% of reporting duties at the station, limiting community visibility

The Nuance® Dragon® Law Enforcement solution enables fast, accurate dictation within the RMS and hands-free license plate look-up for safe and efficient reporting.

Nuance Dragon Law Enforcement software is supported on all Microsoft Windows based TOUGHBOOK computers.

*No limit to how many Nuance Dragon Law Enforcement profiles can be set up on a single TOUGHBOOK device. The maximum number of user profiles would be determined by the size of the hard drive or solid-state drive.
