

THE POWER OF FIRSTNET® IS HERE

ARE YOU READY?

There have been over 2.2 million FirstNet Connections.

This year, FirstNet services will continue to bring 21st century mission critical connectivity to first responders and public safety organizations across the U.S.

To take advantage of FirstNet services you need FirstNet approved mobile devices that provide the same purpose-built resilience and reliability that help ensure first responders have the information and support they need.

WHAT YOU NEED FOR FIRSTNET:

FirstNet Compatible LTE Modem
(Current Sierra Wireless EM7511 or Qualcomm chipset)

FirstNet SIM

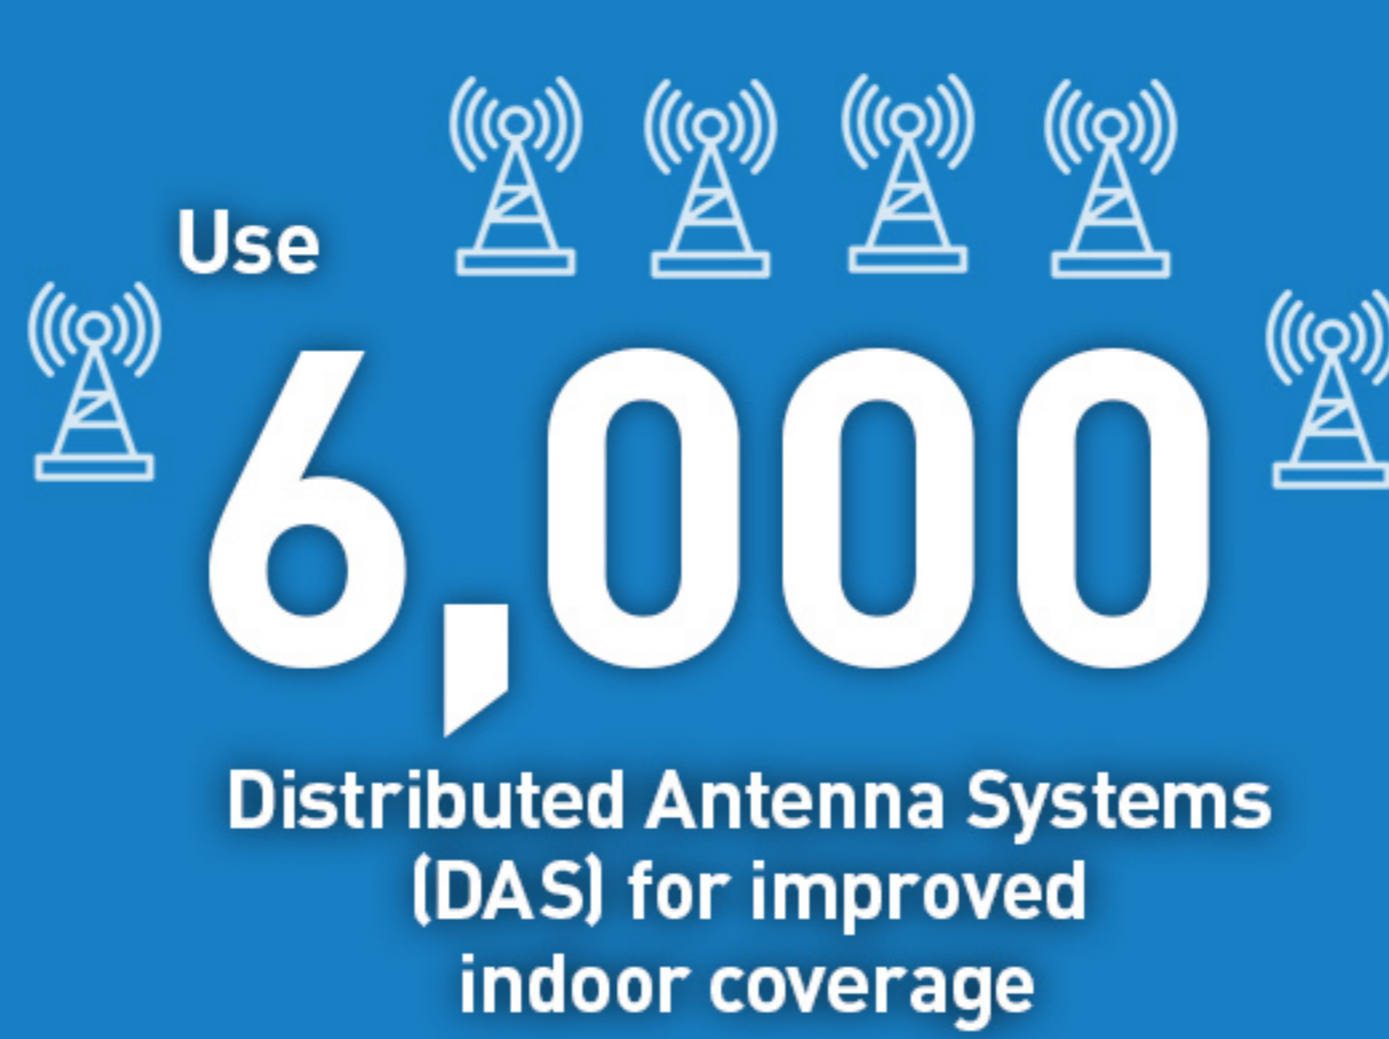

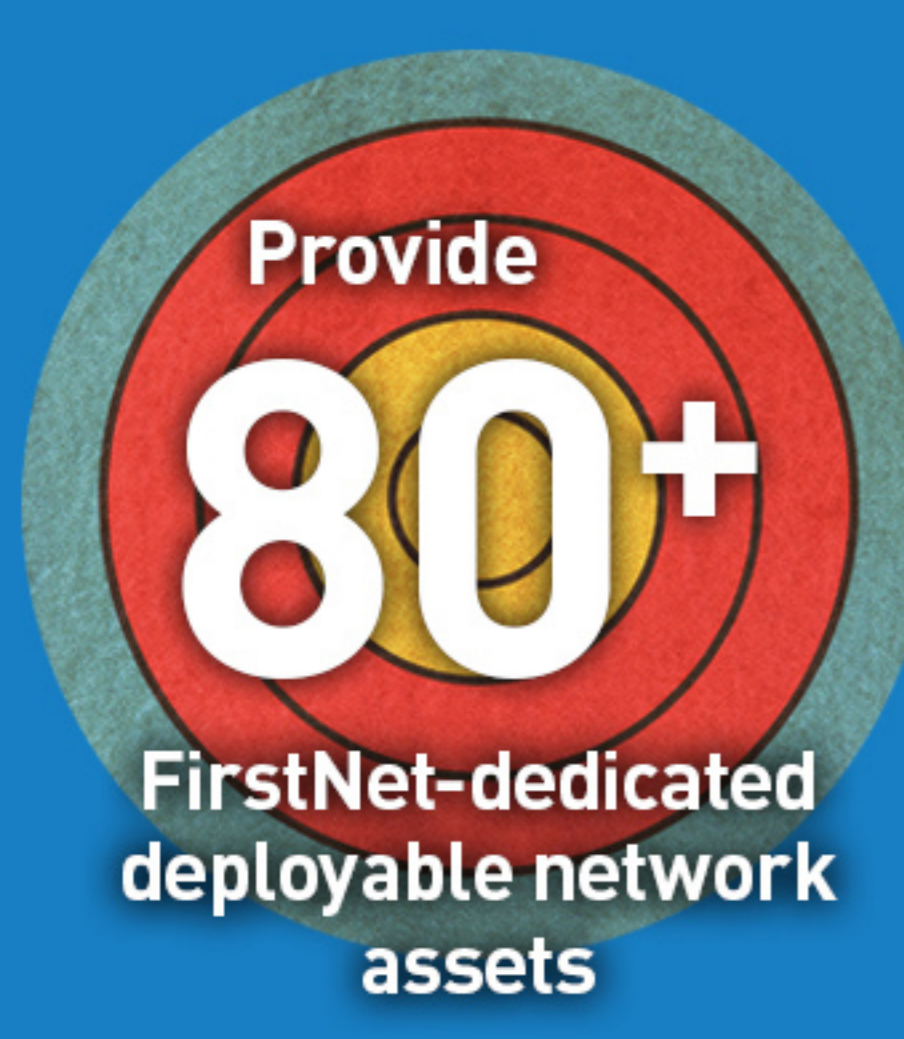

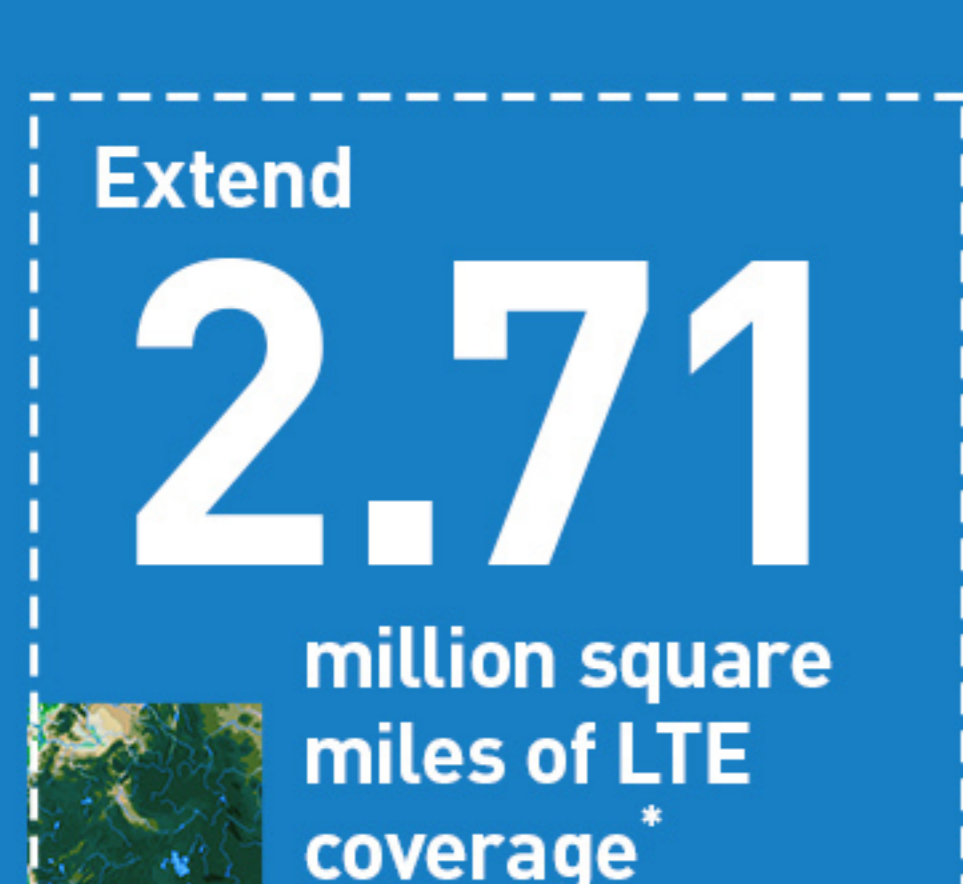

Correct Version of Modem Firmware

FirstNet Wireless Rate Plan

FIRSTNET SERVICES:

16,000

public safety agencies and organizations*

FZ-A3 EM7511

FZ-S1 EM7511

FZ-N1

FZ-20 EM7511

Each of these current models are approved to use with FirstNet SIM with the support of Band 14.

WHAT'S THE FIRSTNET DIFFERENCE?

PUTTING PUBLIC SAFETY FIRST

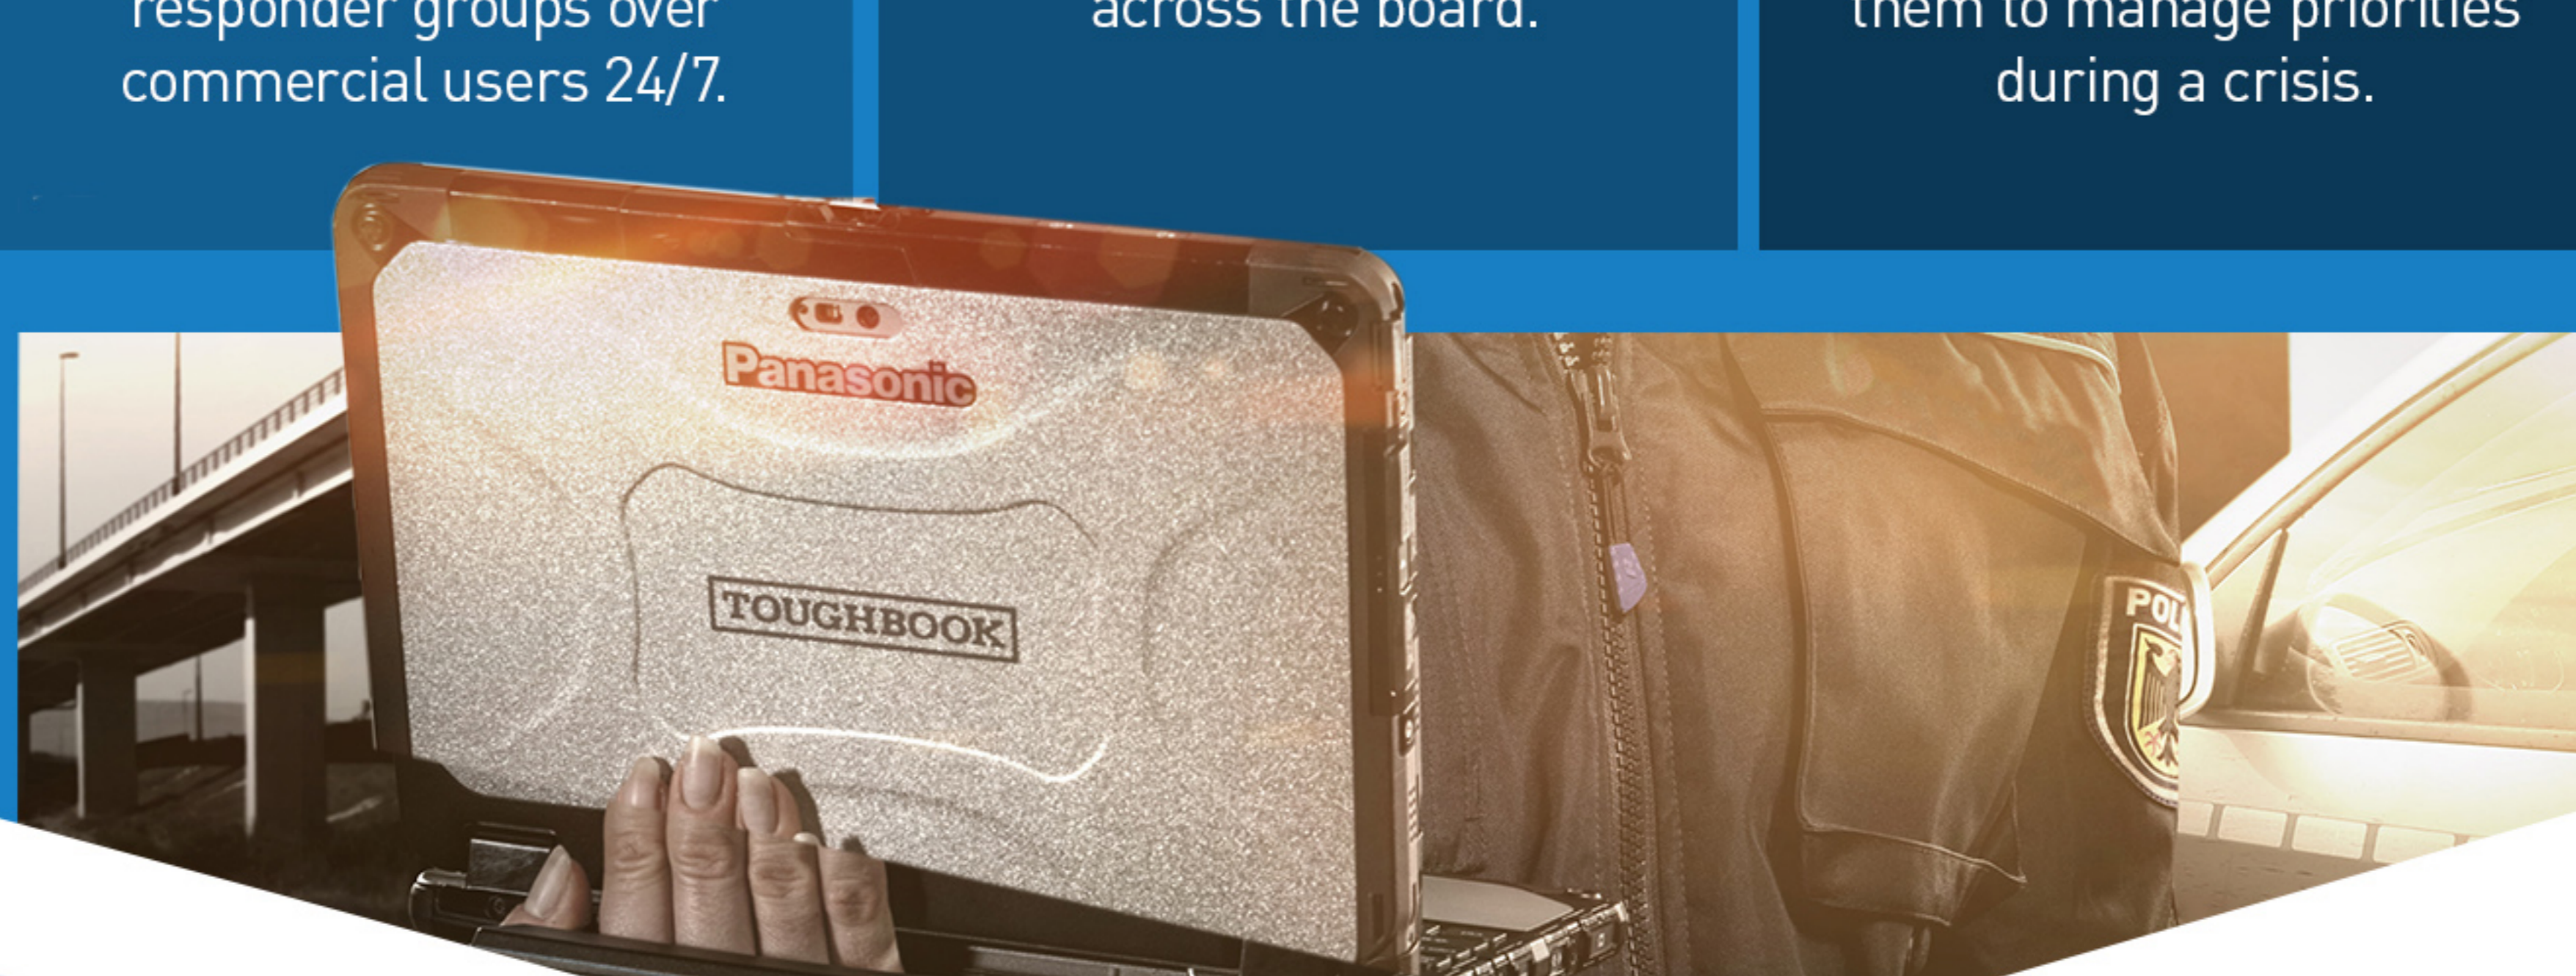

FirstNet prioritizes and preempts voice and data traffic for police, fire, EMS and other first responder groups over commercial users 24/7.

IMPROVED COORDINATION

FirstNet keeps relevant agencies and jurisdictions connected, helping to raise situational awareness across the board.

THE POWER OF LOCAL CONTROL

Public safety organizations get more control over their wireless connectivity, allowing them to manage priorities during a crisis.
