Increasing our value of face-to-face communication as a precious opportunity.

Wireless Presentation System

PressIT

Screen sharing with the simple push of a button!
Wireless Presentation System

PressIT

PressIT is Panasonic’s Wireless Presentation System that allows easy screen sharing with just the single press of a button.

**Simple set up! Share screen in 3 simple steps**

**Step 1**
Connect the receiver

**Step 2**
Connect the transmitter

**Step 3**
Single button push
No app or installs!

*Securing power from a display or projector that supports 5V/2A USB power supply.

*Compatible with image output from alternate mode compatible devices and USB-C ports.

**Connects to mobile devices**
Install the PressIT app from Google Play or the App Store to share screen on your device on a display or projector.

Scan here to download the app

**HDMI-CEC compatible**
Links with display / projector
No remote control required.

*Display or projector compatible with HDMI-CEC is required. We cannot guarantee compatibility with all devices.

**High Installability** Optimal design for different environments and settings

Sophisticated design
[A transmitter designed for ease of use]

Choose the one that best suits your environment
[2 types of receivers]

The button covers the entire top surface

*Includes brackets that can be attached to displays and projectors.

*Compatible with panasonic’s displays equipped with the slot.
**Easy operation**  
Switch to convenient mode at the press of a button  
Able to connect up to 32 transmitters

**Multi screen mode**
Efficiently compare materials and share ideas in discussions and meetings!

[Image: Press sub-button for several seconds during display]
[Image: Press the main button]

**Fixed mode**
Prevents screen interruption during lectures and presentations.

[Image: Press the main button for several seconds]

**Safe and secure performance**  
without a stress even in wireless

**Low latency & High-definition video**
Delay and rattle-less image with Full HD/60fps  
Supports effective presentations without stress.

**Safe & reliable security standard**
- WPA2 standards.
- IEEE802.11ac 5GHz (433Mbps (max.))  
wireless standards.

**Antibacterial & magnetized**
- Antibacterial surface treatment for transmitter and case.
- Able to wipe with a small amount of alcohol at a concentration of 60% or less.
- The back of the transmitter is magnetized for easy attachment to whiteboards and other surfaces.

**Possible usages**  
Improved work efficiency  
Scan here for details

**Create new types of conferences and video streaming**
Wide range of usages by combining with various devices and systems

**Touch screen display (BQ1 Series) + PressIT**
The content written on the touch screen display can be broadcasted directly via web conference, creating a true-to-life experience in online training and classes.

**Handheld Camera (AG-AC30, etc.) + PressIT**
Connect the transmitter to the camera for cable-free video streaming.
