

FIRE RESCUE PROFESSIONALS Demand Better Information and Technology for Efficiency

Here's what they told us.

Priority #1:
Up-To-Date Information

55%

indicated that access to real-time information is a top priority for their agency.

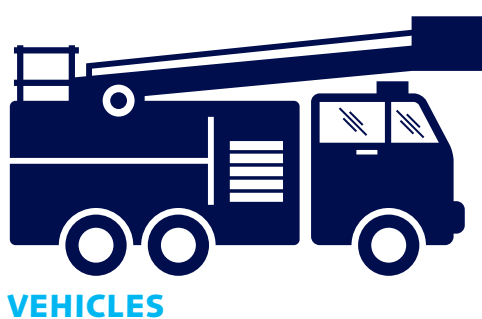

Rugged Computing Devices are Imperative

85%

said that rugged devices are important to have with them on the job, rather than consumer devices.

Real-Time Access to Critical Data

Respondents said priority information they need to access includes:

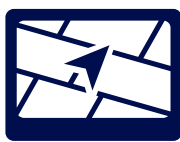

HYDRANTS

PERSONNEL

VISUALS FROM THE SCENE

GEOGRAPHIC INFORMATION SYSTEM (GIS) DATA

COMPUTER AIDED DISPATCH (CAD) DATA
