

TOUGH + Convenient

Last Mile Deployment Service From Panasonic Connect

Panasonic Connect Last Mile Deployment Service is designed to help you complete the final steps of your deployment without taxing your IT Department or disrupting user productivity.

We understand that the last few steps can often be the most time-consuming and tedious, and that's why we're here to help. With Last Mile Deployment Service, you can rest assured that your deployment will be completed quickly and efficiently, with minimal disruption to your business operations.

Whether you are adding new computer equipment and accessories or migrating your staff to the newest technology, you can count on Panasonic Connect to execute quickly and correctly the first time.

Service Outline

Last Mile Deployment Service includes a wide range of tasks that can take several minutes per computer, including those listed in the services examples. Bottom line: with years of planning, managing and implementing mobile deployments, Panasonic Connect is uniquely qualified to deliver a seamless, on-time and on-budget deployment.

Why Panasonic Connect?

Seamless execution from start to finish

- Enjoy the seamless execution from IT consulting, image creation, image deployment, to final on-site ready to go deployment, so you get the maximum benefit

Unmatched quality

- The services are managed by Panasonic Connect engineers assuring Panasonic Connect quality

Single point of contact throughout the IT journey

- Enjoy the convenience of having a single point of contact from Panasonic throughout your IT journey

Service Benefits

Reduced Downtime:

- Our team works quickly and efficiently to complete the last mile deployment tasks, minimizing the downtime for your business operations.

Consistent Quality:

- We have a standardized process that we follow for all deployments, ensuring that the quality of the service is consistent every time.

Flexibility:

- We can work with your specific requirements and tailor our service to your unique needs. We can also provide on-site support if required.

Cost-Effective:

- Our service is designed to be cost-effective, saving you time and money in the long run.

One of the key benefits of our service is that we simplify the deployment experience for our customers. You can focus on your core business operations while we take care of the deployment process. Our team has years of experience in this field and will ensure that everything is done correctly the first time around.

Last Mile Deployment Service is the perfect solution for completing the final steps of your technology deployment.
