

MOBILITY SOLUTIONS FOR FIREFIGHTERS

## RUGGED DEVICES, SOFTWARE AND SERVICES. PURPOSE-BUILT FOR THE WORK YOU DO.

### TOUGH ENOUGH FOR THE BRAVEST OF THE BRAVE

Firefighters equipped with rugged mobile solutions can respond more effectively with access to real-time data that helps them prepare, make faster decisions and improve communications and coordination, potentially saving more lives.

#### Customizable mobile solutions

Our customizable mobile solutions combine purpose-built computers, solutions, connectivity and professional services. They are designed to be easy to use, deploy quickly and put data directly into incident commanders' hands.

#### Devices: Built for the world's toughest users

Panasonic TOUGHBOOK® rugged laptops, 2-in-1s and tablets are durable, reliable and engineered to withstand moisture, drops, dust, grime, accidental drops and more. To make sure they perform flawlessly every time first responders need them, TOUGHBOOK rugged computers undergo more than 500 checks and tests, including military standards testing.

#### Software: Support for firefighting applications

TOUGHBOOK solutions support a portfolio of applications for firefighting, including computer-aided dispatch (CAD) for accelerated response and applications that help you make faster tactical decisions. Quickly access critical information in real time, such as maps, building schematics, fire hydrant locations, incident histories and more.

#### Connectivity: Reliable and always on

Keeping firefighters connected not only depends on the quality of the network, but on the quality of your mobile device. Panasonic manufactures and tests its own antenna modules built with exceptional reliability and connectivity reach. Choose from options for Wi-Fi, Bluetooth® and mobile broadband (5G and 4G LTE EM7511 on Verizon and AT&T (FirstNet Ready™), including Band 48).

#### Services: Planning, deployment and repair

TOUGHBOOK devices are backed by a strong warranty program and the industry-leading ProServices team, a U.S.-based support network with rapid turnaround on repairs and access to specialized services and knowledgeable experts.

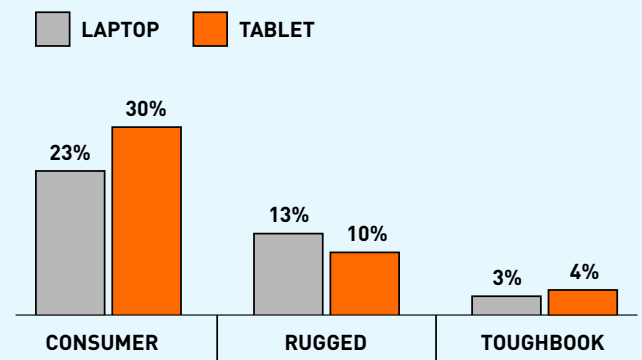

Take advantage of our deployment services to ensure that everything from software to third-party accessories and the battery is configured and fully tested. Our expert vehicle-mounting services can customize installations, making it easy and safe to store and transfer your device.

#### A smart investment

In situations where failure is not an option, TOUGHBOOK devices are significantly more reliable than consumer-grade or other rugged laptops and tablets,<sup>1</sup> lasting longer and contributing to a low total cost of ownership.

#### TOUGHBOOK laptops and tablets outperform consumer-grade devices as well as devices from other rugged competitors.<sup>1</sup>

##### AVERAGE ANNUAL FAILURE RATE

## Panasonic TOUGHBOOK solutions for firefighters

Panasonic Connect offers the following rugged laptops, 2-in-1s and tablets, devices engineered to handle the dynamic conditions firefighters face on the job every day. Exceptional reliability and durability provide access to critical data and apps, while helping first responders keep in touch and coordinate with other agencies via 5G or 4G wireless and major first-responder emergency networks. All TOUGHBOOK devices feature long battery life with an optional hot-swappable second battery. Modular design makes it possible to customize your device with the capabilities you need today and then reconfigure later with new components as your needs change.

### TOUGHBOOK 33

The TOUGHBOOK 33 was designed in consultation with fire professionals, and their input directly influenced the final product. Incident commanders can use the fully rugged 2-in-1 TOUGHBOOK 33 as a laptop for reporting and then easily switch to the tablet for capturing data onsite. The groundbreaking 12-inch 3:2-aspect detachable screen improves display of CAD and building schematics, responds to glove-touch and is viewable in rain, sunlight or at night.

### TOUGHBOOK G2

This fully rugged 2-in-1 tablet with optional keyboard runs on Windows 11 Pro and is powerful enough to access all the data incident commanders need to direct an effective response. The 10.1-inch screen is daylight viewable and operates with gloved multi-touch technology. An optional second hot-swappable battery provides up to 37 hours of battery life. Certified to work in hazardous locations near open flame.
