

MOBILITY SOLUTIONS FOR LAW ENFORCEMENT

RUGGED DEVICES, SOFTWARE AND SERVICES.
PURPOSE-BUILT FOR THE WORK YOU DO.

TOUGH ENOUGH TO PROTECT AND SERVE YOUR OFFICERS

Equip officers with rugged mobile solutions that provide access to applications, data and live feeds for faster decision-making, enhanced coordination and communications, and efficient crime solving and reporting.

Customizable mobile solutions

Our customizable mobile solutions combine purpose-built computers, solutions, connectivity and professional services. They're designed to be easy to use, to put data directly into officers' hands and to deploy quickly.

Devices: Built for the world's toughest users

Panasonic TOUGHBOOK® devices—rugged laptops, 2-in-1s and tablets—are durable, reliable and engineered to withstand moisture, dust, grime and accidental drops. To ensure that they perform flawlessly every time your officers need them, TOUGHBOOK rugged computers undergo more than 500 checks and tests, including military standards and ingress protection testing.

Software: Support for law enforcement applications

TOUGHBOOK solutions support an entire suite of law enforcement applications for accelerated response and increased productivity. Devices can be configured for a range of apps, including computer-aided dispatch (CAD), incident reporting using voice-to-text and evidence management.

Connectivity: Reliable and always on

Keeping your officers connected not only depends on the quality of the network, but on the quality of your mobile device. Panasonic manufactures and tests its own antenna modules, built with exceptional reliability and connectivity reach. Choose from options for Wi-Fi, Bluetooth® and mobile broadband (5G and 4G LTE EM7511 on Verizon and AT&T [FirstNet Ready™], including Band 48).

Services: Planning, deployment and repair

TOUGHBOOK devices are backed by a strong warranty program. The Panasonic service arm, ProServices, offers a U.S.-based support network with rapid turnaround on repairs and access to specialized services and knowledgeable experts.

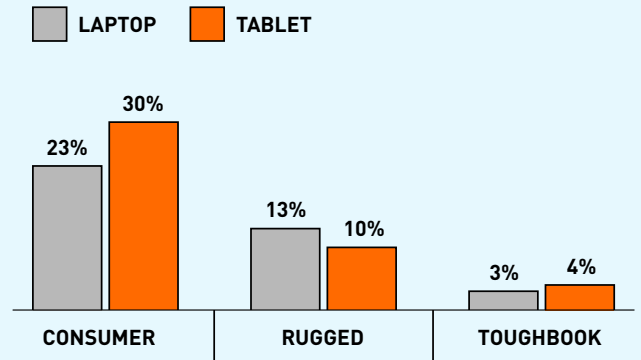

Take advantage of our engineering or deployment services to ensure that everything from the software to third-party accessories and the battery are configured and fully tested. Our expert installation and mounting services can customize installations for your vehicles, making it easy and safe to store and transfer your device.

A smart investment

In situations where failure is not an option, TOUGHBOOK devices are significantly more reliable than consumer-grade or other rugged laptops and tablets, lasting longer and contributing to a low total cost of ownership.¹

TOUGHBOOK laptops and tablets outperform consumer-grade devices as well as devices from other rugged competitors.¹

AVERAGE ANNUAL FAILURE RATE

1. Compares 2021 Panasonic failure rate data (unpublished) with 2021 failure rate data from IDC's The Rugged Device Survey (unpublished).

Panasonic TOUGHBOOK solutions for law enforcement

Panasonic Connect offers the following rugged laptops, 2-in-1s and tablets to law enforcement, devices engineered to handle the dynamic conditions officers face on the job every day. All TOUGHBOOK devices are built with exceptional reliability and durability and feature wireless options and long battery life with an optional hot-swappable second battery. Modular design increases your computing flexibility, making it possible to customize your devices with the capabilities you need today and then reconfiguring with new components as your needs change.

TOUGHBOOK 40

TOUGHBOOK 33

TOUGHBOOK G2

TOUGHBOOK 55

TOUGHBOOK 40

In addition to the modular design and wireless options available on all TOUGHBOOK devices, this 14-inch fully rugged laptop runs on Windows® 11 Pro and is designed for the most demanding environments. It boasts a 5MP infrared webcam for videoconferencing, tetra-array microphones and integrated 95 dB speakers that help firefighters to hear incoming alerts and commands, even in noisy environments. Allows the convenience of post-purchase configurability and upgrades through expansion packs.
