

Top Grants

Federal and state grants are part of the budget picture for nearly every public sector agency in the country. Many agencies are understaffed for grants development or lack experience with grant programs that could dramatically increase their capacity to leverage technology, advance their missions, and impact their communities.

The Panasonic Connect Grants Support Program provides public sector agencies with grants information, customized funder research and consultation that will help develop project ideas, get technology-rich projects funded and even expand initiatives that are already in the works.

Current grant programs offered to eligible public sector agencies:

EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT (JAG) PROGRAM

Source of Funding	U.S. Department of Justice
SUMMARY	JAG supports a range of program areas for public safety initiatives – including law enforcement, prosecution, courts, prevention and education programs, corrections, drug treatment, drug enforcement, crime victim and witness protection, planning, evaluation, and technology improvement programs.
ELIGIBILITY	JAG funds are available to public agencies, including state governments and units of local government (e.g. town, township, village, parish, city, county). States and large-sized municipalities receive funding directly from the US Department of Justice. A list of allocations made in 2022 is available to view here . Small- and medium-sized municipalities NOT identified on this allocation compete for funding through their state public safety agency.
DEADLINE	Direct allocations for state and large-sized municipalities occur approximately in August, annually. Deadlines for small- and medium-sized municipalities vary by state.
